

### Harry Scott Holds Successful Meeting

It was probably the most enthusiastic political meeting ever held in Gleichen was that of Saturday evening, when the Opera House was crowded to capacity.

The meeting was called in the interests of Mr. Harry Scott, and every shade of political opinion was well represented. The ladies were in full force and are evidently taking a keen interest in the contest.

Mayor Tisdale in opening the meeting referred briefly to his acquaintance with Premier Stewart, while a young farmer in Ontario he was honored and respected by his fellow farmers for the noble qualities of mind which had later raised him during his 13 years in Alberta, to the highest position of trust and confidence the voters of the province could bestow on him.

Harry Scott outlined the reasons which had led him to accept the nomination as an independent supporter of the Stewart administration. All his life he had felt that it was his bounden duty to do what little he could for the benefit of his fellow men, and the present time offered an opportunity to widen the scope of his activities. A lifelong Liberal, he had always supported the Stewart Government because of the efficiency it had shown in administrative affairs and the high class of advanced and beneficial legislation it had placed on the statute books, particularly for the good of the farmers.

The Stewart Government needed no defense, for as one point-point a figure at it criticism, but although a supporter of the Stewart Government, he was not going to be party-bound in any way. His attitude would be one of independence, and the Government would have his support just so long as it did what he thought was right, but if they did what was wrong, he was prepared to vote against them.

In this determination to take an independent stand he was strengthened by the fact that he would be called upon to legislate. If elected, not one class alone, but for all classes.

As a farmer, he knew the farmers' needs, but there were others to be considered as well, and he felt glad to have gained the confidence of the Conservative, the G.W.V.A., as well as the Liberals.

If elected he would see to it that the needs of the province would be kept before the House, and a great deal might be expected from the Government of the electorate returned to the center of the political arena instead of a merely sitting opposition. His freedom from family ties and as the representative of his recent past, he felt that it was his position where he could devote his time and energy to looking after the needs of his constituents.

Mrs. Greville, of Calgary, a most eloquent and sweet speaker, expressed her pleasure and delight in meeting so many ladies in the audience. She asked her audience to glance back over the record of the Stewart Government during the past few years. No other province in the Dominion had done so free of labor and political disturbances, and this could only be attributed to the fair manager, in which the legislation took care of the needs of every class. Their record would stand the closest scrutiny.

A farmer himself, Mr. Stewart saw to it that the farming interests were particularly looked after. Clean up, up, up, he kept close upon the heels of the forces under his leadership, and when more farmers were equally zealous in maintaining the principles of political integrity, he had no more doubt for them, his

HARRY SCOTT

#### TO THE ELECTORS:-

In coming before the electorate of the Gleichen riding as an independent supporter of the Stewart Government Mr. Harry Scott of No. 17, Alberta, merits the confidence and support of every voter in the riding.

He has been farming for more than thirty years on the same farm near Gleichen and has proved himself a most successful farmer during the many up and down of those difficult years.

While he is well and favorably known to most of the electors there may still be some who do not know him and to these latter, this letter is particularly addressed.

No one has earned a greater measure of respect among the electors of the Stewart administration, since, honest and unselfish in every thing he does, he carries the confidence and respect of every one to whom he is known.

His sturdy independence and strong sense of square dealing, refuse to be bound absolutely by any political party, but realizing the true measure of good government given to the farmers by the Stewart administration in the past, he will support it just so long as they continue to do what is right and their views do not conflict with the needs of the Gleichen riding.

A successful farmer himself he realizes what the farmer needs especially in this constituency, which he knows so well and where he has resided so long. It would be hard to find a better representative from the farmers' own viewpoint.

His standing in the community, his patriotic and philanthropic work on behalf of the boys during the war has caused every class to rally to his support and not only have the Great War Veterans pledged themselves in his favor, but the Conservatives have also considered it their duty and privilege to do the same.

The Gleichen riding is fortunate in having a candidate in Mr. Scott who can capably represent every class of voter, including his fellow farmers.

WILLIAM GALLOWAY,  
President Stewart Government Convention  
JAMES YOUNG,  
President Gleichen Conservative Association  
JAMES BATES,  
President, Gleichen Branch, G.W.V.A.

thought the U.F.A. showed considerable ingenuity in setting up the opposition they did. The U.F.A. was a body without a head, each group constituting a law to themselves, and they were trying to place men in power without experience or training in administrative affairs. The result would be chaos and for several years at any rate, disastrous for the province.

The Stewart Government had the world in mind in its legislation. It was the first to give voters and an opportunity to hold office to women.

Their health programme had advanced considerably, and even now Dominion authorities were sending representatives here to study this class of beneficial legislation.

The Government of B.C. at the request of the women of that province, is sending a select number to study Alberta's legislation in this respect, so that their own may be modeled after the same. There are already 25 health nurses in the department engaged on courses of instruction through the province, day making school inspections of the health of children, instructing mothers in the care of the little ones, while five of the nurses are continually in the field in districts remote from doctors, taking care of and advising peasant mothers.

The Widowed Mothers' Act was also one that attracted widespread attention, and while it cost a very large amount of money to operate, it was money well spent in keeping homes intact and did away with the necessity for children's asylums. Many

referring briefly to Harry Scott, he said that on several previous occasions Mr. Scott had been asked to accept the nomination, but had always respectfully refused. His acceptance now was a matter we could probably explain ourselves, but Mr. Scott realized that he had reached a crisis in the affairs of the province and that, by taking up different issues, he could help straighten things out.

The situation was serious and fraught with danger. A group of men had come forward bent on changing our form of government, a form of responsible government which had only been attained to in Canada, after many years of strife and bloodshed.

A form of government that had been evolved in the old Mother of Parliaments after many centuries of conflict between the ruling classes and the people. These things were not known to many of the new men who came from the United States and other lands, were unfamiliar with the growth and development of our constitutional government. These people do not realize the responsibilities of the present occasion and with outstroke of the pen would sweep aside our established form of government, and substitute for it a group government, an experiment on exactly the same lines as socialism, which has brought disaster to Russia. Indeed there are some in the district who so far as to say that Russia is the best governed country in the world. Alberta has an agricultural province, group government being a thing of the future, and under their group system the farmer would have no say at all. Group government set up as a means to do so, the ultimate subordination of the farmer to the state.

An analysis of recent legislation shows that the farmer has been specially favored, yet so unfair discrimination has been made against other classes. While agriculture predominates the other classes cannot be ignored. Six

million tons of coal are mined in Alberta every year. The miners represent a considerable proportion of the population. Coal is a necessity to every class, including the farmer. Then there are distributing houses, merchants, professional men, and all the thousands whose interests must be looked after, because they are not and can never become farmers. These classes require adequate representation under the group form of legislation, a form which would do away with class unity. He pictured the Prime Minister under group government chasing around trying to line up the different groups to secure the passage of an act before the House.

Under majority representation, as we have it now, no one group can dominate another.

Reference was made to the million dollars raised on the credit of the province to enable the U.F.A. to build a string of elevators to compete against the chain of elevators owned by B. Bennett once referred to as "My elevator."

The other Ministry Act is the simplest act in any province and protects the farmer against any contract he may foolishly enter into. A contract can be declared null and void by a judge if the farmer can show that the agreement would bring him hardship upon him, or that he misunderstood the terms when he signed it. No other protection is protected in this way.

There are six schools of Agriculture in the province, one of them at our very doors. These schools are centers for disseminating agricultural knowledge and offer every opportunity of assistance to the farmer in combating grasshoppers and many other plagues that beset the farmer.

Alberta is the only province in Canada that has done so much for the farmers, yet the farmer is dissatisfied. An analysis of the Government shows that the Government side of the issue there were 13 members whose sole occupation is farming, and

(Continued on Page 12)

millions of tons of coal are mined in Alberta every year. The miners represent a considerable proportion of the population. Coal is a necessity to every class, including the farmer. Then there are distributing houses, merchants, professional men, and all the thousands whose interests must be looked after, because they are not and can never become farmers. These classes require adequate representation under the group form of legislation, a form which would do away with class unity. He pictured the Prime Minister under group government chasing around trying to line up the different groups to secure the passage of an act before the House.

### To Electors of Gleichen Constituency

At a representative U.F.A. convention, held for the purpose of selecting a candidate in the Gleichen Constituency for the coming Provincial Election, John C. Buckley was the unanimous choice.

He, the Political Board of Directors, beg to inform you that, owing to the extremely limited time allowed by the Government before the election, we find it impossible to arrange meetings as broad as we would if time permitted, so are looking him in districts where he is least intimate, and trust you will appreciate our difficulty.

For the past fourteen years he has worked for and has promised to support the great democratic movement and high ideals for which we stand, so therefore we take this opportunity of soliciting your support and influence on his behalf, and hope you will cooperate with us in substituting for our present unworkable and corrupt old party system a purely democratic one, which will be directly amenable to the voice and educational control of the people, by returning him at the head of the poll.

Signed on behalf of the Board,  
W. A. HIATT, Secretary,  
Rockyford, Alta.

### A Public Meeting in the interests of John C. Buckley will be held in Gleichen Opera House Saturday night, July 16th. Every person invited. The candidate and other speakers will address the electors.

### Board of Trade Meeting "Outside the Law" Next Mon. & Tues. At Opera House

Priscilla Dean, queen of cinema crookdom, appears in the greatest characterization of her career, and her first feature film "The Virgin of Istanbul," at the Broadway, Wednesday of the underworld, "Outside the Law," which will be shown at the Gleichen Opera House, starting Tuesday, July 19th.

An "Silly Noddy" Madam, daughter and pal of a notorious but refined San Francisco crook, ably backs her own scheme and makes an opportunity to reverse herself on society after her father has been railroaded to prison.

Bury more of an elegiac than most stars appear in it, with a view to the wisdom of women who live by wit, and with the heady sweetness of dry wine, and with a heart as hard as it is pure. After her dramatic coup, in which a hush is bound and exposed to the music of his own dance orchestra, and with a \$200,000 "redneck" within grip of his guests.

Silly Noddy and her male confederate "hide out" in the Kibitz Hotel apartment. During the last months of their voluntary imprisonment a great change came over the lives of the two, through the influence of a chummy little kid from the next door apartment.

"Outside the Law" is a Universal Jewel, an expenditure of a quarter of a million dollars, and the result is said to be one of the most notable character studies in the cinema, patriotic and justly, Lon Chaney, acknowledged the foremost character on the screen, is prominent in the story, and in two roles of astonishing versatility; whether Oksana playing opposite Miss Dean as Daphne Bill, a brook with the instincts of a gentleman, Hugh Lewis as the father, R. A. Warren as the cinema photographer, Wilton Taylor as the police inspector, Melbourne MacDowell and little Stanley Goss are the other principals in the cast.

Rev. A. G. Love of Redlands in the U.F.A. candidate contest to open the door to a new era in the New Valley riding, but even should he be elected he will be disqualified as he forgot to resign his government position before becoming the candidate for business for a man who would exact laws.

### Gleichen Candidates

The Carl regret that Mr. Buckley, the U.F.A. candidate, has not yet held any meetings in this vicinity that we might report, and also that he has no followers here. He would supply us information concerning himself, his platform or the reason he is in the field. He called at this office for a few moments Monday and stated he would hold a meeting in Gleichen next Saturday night and he would advise us what would assist him, but at the hour of going to press we still lack further definite information.

We regret having no reports from a news point and also for the fact that many questions are being asked of a personal character by those who should know, and also of a general character. We regret it because we like to be fair and will not have time to answer a paper before election day.

On the other hand we have only taken a few minutes on two occasions with Harry Scott, the independent supporter of the Stewart Government candidate, but he has been exceedingly helpful and kind, and his friends have helped us with favorable information.

The Carl usually fights shy of an election, but as the two candidates are farmers and their interests are the same we cannot see why they should be opposing each other. Thus it is only a question of which man will make the best representative. Being on friendly terms with both men and knowing them for years we have no hesitation in saying we believe Mr. Scott would be the best man for the job.

He has the firm, has made a success of his own business, has no enemies and no person casts a shadow on his integrity or honesty. Mr. Buckley on the other hand has his friends and good qualities, but he has not yet made a success of his own business, at least he has indicated to us he has not, but we sincerely hope he will in due time. He was one of the "Buckley's" Market, which from being a prosperous business declined, at all times, to anything but a success. Therefore, Mr. Buckley should be allowed to continue his private life unobscured until he proves successful, and thereby show his ability to deal with the weighty business arising in parliament.

Queensdown Local U. F. and U. F.  
W. A. have joined together to make  
the day a success. (Look for the  
Posters.)

The Alberta Co-Operative Cred-  
it Department has secured the co-  
operation of the banks for a line of  
credit to carry on the affairs of the  
members of different societies in  
operation. (Since this agreement  
was reached early last spring, seven  
societies have been in active op-  
eration, and have secured the neces-  
sary funds to cover their require-  
ments, and at the present time  
more than a quarter million of  
credits have been granted through  
the Boards of Directors of the dif-  
ferent societies doing business. The  
Alberta Government has an ad-  
vantage in this issue concerning  
the working of this new legislation  
that every farmer should read.

**CORRESPONDENCE**

To the Editor Gleichen Call:

My only intention in this writing is to give readers the results of the experience, gained both by practice and study, on the different methods of irrigation, and it is specially the Border Method which I intend to explain, for it is the one that gives better satisfaction.

This method is now generally used in U.S.A., and it will soon be accepted in this country on account of its feasibility and efficiency. To understand its superiority over any other method it is necessary to explain how it is done, and it will not interfere with the workers of other implements.

It is not necessary, though advisable, to prepare the soil by flouting the summer fallow; the stable, or course, method is well understood, there is no doubt a field roughly leveled up, can still be satisfactorily irrigated as long as the draining is not objectionable. This is specially for new sections, to bring their attention to the following facts. When a first crop is a failure it is most important to have plenty of moisture in the soil for the following year, and for this purpose no method equals this "Border Method" and the use of the Border Watering Machine is necessary to bring the ground into shape.

How to proceed—(1) Begin by passing the ditch to turn the soil in much. Build the ridges with the roller without making from 6 to 12 feet apart, according to the incline of the land. On a rolling field the ridges should not be too far apart. In one day a man must should build such ridges on 12 to 24 acre of land. (2) If you work your farm in the fall, in the barrow when ridges are finished. In spring it is more advisable to seed first and mark crossways, the ridges not following the sections. Of course if it is raining this task will be unnecessary. (4) Build the ditches sufficiently wide to carry two second foot water. (5) With a scraper open the ditch between every 200, or in other words, in the centre of each section to give the water an easy way in each section ditch and you start irrigating. Passing the barrow along the ditches on these openings would make the work most satisfactorily. In two or three hours a person should make these openings of a distance of half a mile long. (6) To irrigate by this Border System no tool is necessary; just a half dozen men can only require. A hose or spade are of no little

use that they would be lost in the field. Take a canvas to dam the ditch below the first opening and direct the water in the sections, which immediately spread between the damming ridges. Then watch the result and wait until the water reaches the end of the first sections and ground sufficiently soaked, then take out the canvas and apply then on the section below. By using this easy method on irrigable land in Alberta there is no danger of drought, for you are sure to have moisture quickly when required and to the desired quantity.

Darius Blevens, farmer, Quilleyville.

**Union Church Notes**

At a meeting held yesterday the Sunday School executive decided unanimously not to close the school during the month of August.

**Next Sunday**  
Sunday School 11 a.m.  
Service and School at Mr. David Melikan's home 2:30 p.m.  
Evening Service 7:30. "The cost of Salvation"

A high wind the air full of dust did not seem to lessen the pious spirit last Friday afternoon, and 200 persons had a good time, although weather conditions made it impossible to carry out the program of sport as planned. The Sunday School wishes to thank the car owners who took the folks to the grounds and brought them home again in the evening.

**Local and District News**

Henry is building a day of sports tomorrow at which Gleichen plays baseball.

If Calgary has no better junior and senior baseball players than they send to Gleichen it is about time they raised a few. Soon they will be spoiling our gate receipts unless they put up bigger games than they have recently.

Old Hattie Almas Graham, eldest daughter of Mr. J. E. Graham, Eighth Ave., passed away on Tuesday, July 5th, at the age of 49 years. Deceased, who was a sister of Mrs. Wm. Ferguson, was not well known in the community having been in invalid for many years. The funeral service was conducted by the pastor of Union Church on Thursday afternoon, July 7th. Interment being made in the Gleichen cemetery.

Was impounded in the pound kept by the Gleichen Municipality on the 20th day of June, 1921. Dated at Gleichen this 20th day of June, 1921.

G C HOUSE,

## Gleichen Exhibition

\* The directors of the Gleichen District Agricultural Association are sparing no effort to make this year's fair a success and it will not be their fault if it is not better than its eleven predecessors.

They have revised the entire prize list, cutting out a few that did not appear popular and adding many new ones. In order to get the ladies interest they succeeded in getting the United Farmer Women Association and the Women's Institute to each appoint a committee, and the two committees have prepared the prize list and will have entire charge of the ladies' department during the exhibition. Thus, the ladies of these two strong organizations will naturally feel it their duty to see that a good exhibit in this department is provided.

The livestock exhibit promises to be good this year as a special effort is being made to induce a number of our best breeders to exhibit, and Principal Bodman has kindly consented to a request to have an exhibit of livestock on the grounds from the Gleichen School of Agriculture, but will not compete for any of the prizes. This exhibit alone should draw a good attendance.

In order to create a greater interest and to have a big exhibit of grains, grasses, roots, vegetables, etc, an auto truck will be sent out through the country the day before the fair to bring in the exhibits. Thus exhibitors who cannot bring in their own exhibits need only notify Secretary F. L. Mallory, fill out the entry form and leave the exhibit at their own gate—not forgetting later to cash their prize cheques.

The prize list will be ready for distribution within a few days.

## QUEENSTOWN NEWS

The Milo Store has been sold to Mr. Sidney Peters, of Champlain.

P. Miller has been appointed weed inspector for the Milo district.

Louis Johnson is doing a land office business in his new Milo garage.

Wm. Oster has purchased the half-section farmstead owned by Gordon Stuart.

The U.F.A. and U.F.W.A. locals meet in the hall Saturday evening, July 20, at eight o'clock.

"When is a farmer not a farmer?" The latest out, will be sung at some of the provincial ridings before election.

A. Begg has returned from California and is staying with his son-in-law, James O'Leary, while in the district.

The date of the farmers' picnic has been changed to July 26th, so don't forget it is all about for Lake Meadregor on that day.

Our friend, Nels Omland, went all the way to Ontario and brought back the girl. We are now waiting for an invitation to the wedding dance.

It is at last. After an extremely trying dry period, during which crops were beginning to look sick, rain has begun to fall on July 15th, and as it has rained more or less for three days things begin to take on a more hopeful look.

The Provincial Selection of 1911 brought the telephone trunk line to Queenstown, the 1911 election brought the Cluny bridge, the present one on the graded road across the Snake Lake bottom. Too bad that provincial elections don't come every six months.

It happened at Milo during the recent dry spell. Two farmers were sitting on a box outside the Milo store, discussing the non-existence of every thing. Suddenly one looked up and observed what looked something like rain clouds. "Oh, George!" he exclaimed. "I think it is going to rain after all!" "Don't get excited," replied George. "There is no rain in those clouds; they are just some of Harold's capotes coming back from Harold's flat."

## An Open Letter From Social Service Council

Dear Sir:  
As you are announced as a candidate for the Provincial Legislature at the election to take place on the 21st, we would appreciate at your earliest convenience, an answer to the following questions—

Are you in favor of the complete suppression of the liquor traffic for beverage purposes in this province as expressed in the vote of a majority of the electors in the two referendums on this question; and if elected, do you promise to give your entire support to the securing of this end?

If the liquor interest desire to take a referendum in this province on the sale of liquor for beverage purposes, are you in favor of compelling them to present a petition from the electors of this province according to the requirements of the District Legislation Act of Alberta before the privilege of taking such a referendum will be granted by the Legislature, and if elected do you promise your entire support to this proposal?

Signed on behalf of the Local Committee of the Social Service Council, W. H. Brown, president.

H. H. Hill, general secretary.

Dear Friend,  
The friends of Prohibition are the allied forces that constitute the Social Service Council of Alberta.

We have no objection to you as a matter that, in our opinion, is of first rate importance. It is a recognized fact that the ultimate solution of every problem is a moral solution. Has not the experience of recent years been proclaiming this from the house top? This means that personality is the greatest of success or failure. We all see this in the home, the church and the school. Are we as willing to see this in the legislature?

We are facing another Provincial election. If the legislative and administrative acts of this province are to have strong moral qualities this can only be when the elect persons of strong moral character who will put this stamp upon them. The people of this province have said twice by large majorities that they want the complete prohibition of the liquor traffic for beverage purposes. The will of people carried out by the Moderates to the "dry provinces" is the answer to the friends of prohibition.

By giving the voters the opportunity to choose between persons of the above type we believe that the highest interests of this province will be served. On behalf of the executive of the Social Service Council, W. H. Brown, president.

If it is all right, please send your answer to the Social Service Council, c/o the Gleichen School of Agriculture, Gleichen, Alberta. If you are unable to do so, please send your answer to the Social Service Council, c/o the Gleichen School of Agriculture, Gleichen, Alberta. Are you a member of our "One Thousand Club"?

## Why Should The United Farmers of Alberta

Oppose the

## STEWART GOVERNMENT?

Premier Stewart is one of the best farmers in the province.

The Provincial Government has enacted more legislation in the interests of the farmers than any other government in Canada.

The platform of the U.F.A. is almost identically the platform of the Stewart government.

All classes and sections have received the utmost consideration at all times from Premier Stewart and his cabinet.

The government has been progressive and business-like.

Critical times are ahead, and the government is prepared to cope with these problems in an experienced and careful manner.

## Why, Then, Should Premier Stewart be Opposed?

Remember what Hon. T. A. Cramer, national leader of the organized farmers, had to say when he addressed the F. A. convention in Edmonton, January 20th, 1921, as reported in the press.

"Mr. Cramer pointed out that the business of government be cared not whether it was a multiplicity, a privilege, or in the other hand, a business that should engage the attention of every honest citizen no matter what his calling or occupation might be, and consequently, that being the case, for one was willing to take common ground with the other man, whatever his profession might be, no longer to be believed in politics but be the speaker, believed in, and would be willing to work with him for those ends."

"That does not mean that the position of government, or of any farmers' organization is challenged," said Mr. Cramer. "It would be a thousand pities, if we were to do anything in Canada today that would destroy the integrity and effectiveness of the farmers' organization. Your U.F.A., as your president has pointed out on many occasions, must continue its existence and be a farmers' organization, built up as such, but let me say this—when you get into the wider field where you are dealing with matters of vital importance to all the people of the country, do not refuse the support and assistance of the man who is willing to work with you toward that end. You will find in your final purpose if your motive is to seek power alone for the sake of power, if it would be a fatal mistake if we became animated with the desire to acquire power in government merely for the sake of having it."

**CRITICAL TIMES IN THE ERA OF RE-ESTABLISHMENT ARE STILL AHEAD—THE WORDS OF HON. MR. CRAMER CARRY A NOTE OF GRAVE WARNING: THE STUART GOVT. HAS AN UNCHALLENGED RECORD OF SPLENDID PUBLIC SERVICE. WHY NOT STAND TOGETHER AND WORK TOGETHER?**

## Barry Scott Holds Successful Meeting

(Continued from page 1)  
there are other 14 representative of five million dollars of land.

There are other 14 representative of five million dollars of land. Barry Scott, who he felt sure, would be able to secure an adequate appropriation for this work better than could a meeting sitting in opposition. Questions were invited and answered and an opportunity given for any supporter of Mr. Buckley to address the meeting, after which the meeting closed with "God Save the King" and three cheers for Harry Scott.

The Cow Bill, in spite of the allegations of Mr. Davis that 65% of it has gone to foreigners, has proved extremely beneficial to a large number of small farmers, and the Government has shown no discrimination towards the applicants. It is sufficient for them that a man is anxious to build up a herd, irrespective of his color, creed or nationality.

The Supplementary Revenue Tax, based on a rate of two mills of the assessed value of the land, has been necessary to meet the increasing expenditures for agricultural schools, technical and normal schools, and the University at Edmonton, which during the past season had an attendance of eleven hundred students. The public health nursing service also makes a heavy demand on this fund, which amounts to only some seven hundred thousand dollars a year, but by far the largest part of the revenue is derived from corporation taxes and succession duties.

The financial standing of the province was such that it could obtain money on better terms than any other province in Canada. This is a borrowing province, not a depositing, and must continue so for many years to come, if the necessary constructive work must be carried on, but he asked, how long would the confidence of the bondholders hold if the result of Government were turned over to an inexperienced and untrained body of legislators under a system of group government? We must go where

money is and we must retain the confidence of the bondholders as to the stability of the finances of the province. He felt confident that the good sense and intelligence of the electorate would lead them to vote right, and that Mr. Scott would be elected. He had his own personal reasons for wishing that Mr. Scott would be elected. As a constituent and farmer in the Gleichen riding he objected to having grain order now raised and wanted an opportunity of getting after Harry Scott, who he felt sure, would be able to secure an adequate appropriation for this work better than could a meeting sitting in opposition.

Questions were invited and answered and an opportunity given for any supporter of Mr. Buckley to address the meeting, after which the meeting closed with "God Save the King" and three cheers for Harry Scott.

## Province of Alberta Co-operative Credit Societies

The Provincial Government has provided legislation designed to encourage the co-operation of farmers by adequate credit, longer term loans, lower interest rates, cash prices for purchases, saving of time and labour, and an improved community spirit.

### Increased Farm Credit depends upon—

- (1) Greater reliability of loans.
  - (2) Certainty of repayment.
  - (3) Adequate powers of security.
- The Alberta Co-operative Credit Act, in its amended form, grants exceptional powers in the matter of taking mortgages, security, and thus repayment can be fully provided for.

### Organization of a Society requires—

1. Fifteen signatures to preliminary prospectus.
2. Thirty members in good standing to start operations.
3. Fifty members to subscribe for first stock on which they pay twenty per cent. each year thereafter.
4. Affairs controlled by Board of Directors.
5. Limited liability.
6. Guarantees of Municipal District and Government are given in accordance with terms of Act.

IF YOU ARE INTERESTED AND DESIRE FULLER INFORMATION COMMUNICATE WITH—

HON. C.R. MITCHELL,  
Provincial Treasurer.

W.M. SELLER,  
Superintendent Co-operative Credit Act,  
Parliament Buildings, Edmonton.
